If you get the Warning – you will need to do the follow steps in order to watch a video:

Click the warning link:

### How to use the Client Environment Tester

This Environmental Tester is a set of tools to help you determine if your current computer setup will be able to handle functionality you might encounter when using TRAIN, specifically online courses provided by independent Course Providers.

TRAIN does not require you to pass all of these tests (TRAIN technical requirements are found in the [System Requirements](#) section of the "About This Site" tab)

To run the Test you must click "Run Test" below.

If you continue to have problems with a course after reviewing these additional tools, please contact the Course Provider.

### Client Environment Tester

Not Yet Tested

Run Test

Click "Run Test"

### Client Environment Tester

Automated Tests : [Re-Run Tests](#)

-  [Firefox 47 Detected - Passed](#)
-  [Flash 19.0.0 Detected - Passed](#)
-  [Screen Resolution 1366x768 Detected - Passed](#)
-  [AJAX support - Passed](#)
-  [No Pop-Up Blockers Were Detected For A Code Initiated Pop-Up - Passed](#)
-  [Cable or LAN/T1 1572.94 kbps Detected - Passed](#)

Manual Tests :

-  [Run User Initiated Pop-Up Blocker Test](#)

Now click anything that is not green and it will tell you how to fix that issue.

If you are still having trouble, please contact your Regional Council.
