

2025 Regional EMS Symposium

May 9 - 10 @ Erie's Bayfront Convention Center

At A Glance

Friday Is All About Options

Three General Session Tracks

Every hour, choose your own adventure: dive into hands-on skills labs, dissect real-world case reviews, or expand your knowledge with cutting-edge theoretical sessions—your learning, your way!

Medically Directed Rescue

This hands-on rescue training equips EMS and fire personnel with the critical skills needed to initiate patient care in challenging rescue scenarios—whether it's a confined space, vehicle entrapment, or other high-risk incidents. Whether you're ALS or BLS, this class will challenge you, prepare you, and ensure you're ready to make a difference when it counts!

Just For Instructors

Sharpen your teaching skills and stay ahead - dynamic, and hands-on, designed specifically for EMS instructors!

Saturday Morning – The Future of EMS

Start your day with a powerful, eye-opening experience that will ignite your passion for EMS like never before. The morning kicks off with a screening of *Honorable But Broken*, a gripping film that lays bare the harsh realities of our profession. Then, join an unfiltered discussion with national and state EMS leaders and legislators as they react to the film and tackle the urgent issues facing our industry. Finally, hear from EMS visionary Matt Zavadsky in a must-see keynote that will challenge perspectives, inspire action, and leave you ready to be a driving force for change.
